FUEL CELL WITH FUEL DROPLET FUEL SUPPLY

Examiner: Yuan

S.N. 10/061,830

Art Unit: 1745

September 11, 2003

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to a fuel cell system comprising a fuel supply apparatus that supplies a plurality of fuel droplets, classified in class 429, subclass 19.
 - II. Claims 21-35,65-72,79-81, drawn to a drop generator and a drop ejector, classified in class 347, subclass 57.
 - III. Claims 36-64,73-78 drawn to a method of manufacturing a drop ejector, classified in class 438, subclass 21.
2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different function. The drop ejector in Invention II can be use for inkjet printing as documented in US 5,828,394.
3. Inventions II and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). As admitted by the applicant, the

Art Unit: 1745

drop ejector can be manufactured by various methods as stated in claims 36-39, 40-43, 44-51, 52-57, 58-64, 73-75, 76-78, respectively.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
